

CertaScan Footprint Training Videos

If you were unable to attend the on-site training class conducted by CertaScan during your initial launch, you will need to complete the full 27-minute training video online.

You will also find several short 3-minute videos on how to troubleshoot your CertaScan system.

1. Type the following link in your web browser on your smartphone or work desktop.
 - a. <http://training.certascantek.com>
2. Click on “CertaScan Safety System Main Training Course”
3. Enter the following password to gain access to the training video.
 - a. certas645
4. Input your **WORK EMAIL Address AND Name** if prompted.

Please disregard any mention of the system being touchscreen as this function is no longer supported.
